

HIGH PERFORMANCE
HARD FLOOR PROTECTOR
User Guidelines

Thank you for buying HIPPO Hard Floor Protector.

- For best performance store and use in ambient conditions, ideally at room temperature for 24 hours prior to use.
- Please ensure that the surface to be covered is clean and free from dust, moisture and grease.
- Always lay the material on a small non critical area first to test for suitability.
- Where lengthy projects are involved, we suggest replacing after 28 days to provide optimal performance and protection. In areas with high footfall, the film may need to be replaced more often.
- Direct sunlight and intense heat may adversely affect the performance of the film.
- HIPPO Hard Floor Protector is for one time use only - remove and dispose of in accordance with local environmental regulations.
